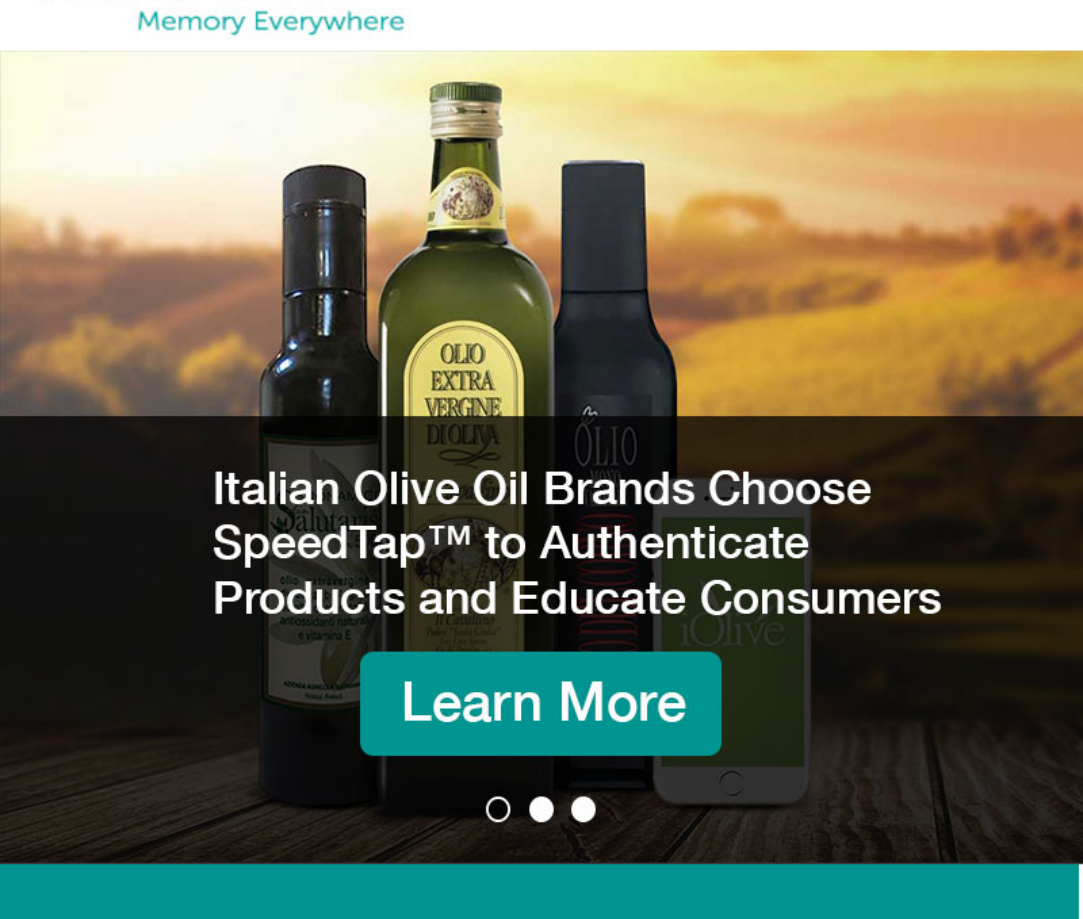
THINFILM
Memory Everywhere



Italian Olive Oil Brands Choose SpeedTap™ to Authenticate Products and Educate Consumers

Learn More

Thinfilm is the global leader in the development and commercialization of printed electronics and smart systems.

Thinfilm Internet of Everyt...
THINFILM
PRINTED ELECTRONICS
THE INTERNET OF EVERYTHING

We print electronics, allowing us to produce ultra-high volume at low unit-costs—a unique combination of scale and affordability.

Today, Thinfilm is delivering on its mission to make everyday objects just smart enough. In doing so, we are extending the boundaries of the Internet of Things and helping to create a truly connected world.

Our Products

NFC SOLUTIONS

Enhanced product security and rich consumer engagement – all in one smartphone-readable label.

Learn More

Smart LABEL SENSORS

Cost-effective safety and reliability for temperature-sensitive shipments.

Learn More

Memory LABELS

Utilize a cost-effective read/write memory solution for intelligent consumable refills.

Learn More

EAS TAGS

Strengthen your retail loss-prevention program with next-generation anti-theft tags.

Learn More

> “Forget smart lightbulbs and smart appliances. Smart alcohol bottles could bring high-tech brains to your home bar.”
>
> cnet

THINFILM

Our vision is to bring electronics to even the most cost-sentitive applications. We make electronics through a fundamentally new process, printing rather than semiconductor fabrication.
